Dear parent,

Greetings from GNS!

The global outbreak of the Novel Corona Virus (COVID 19) has not only impacted all aspects of life but also the educational system. Schools across the country have been shut for the past few months due to the lockdown. We at GNS have tried to adapt to this changed scenario by keeping alive the teaching process through online classes however, there has been a significant shortening of physical instructional hours.

Thus, to make up for the loss in instructional hours during the current academic session 2020-21, CISCE along with its subject experts has reduced the syllabi for all major subjects at the ICSE levels keeping in mind the linear progression across classes while ensuring that the core concepts related to the subjects are retained.

The reduced syllabi of Class IX and X for the current Academic year, 2020-21 are available on the CISCE website www.cisce.org which is under publication. However, We at GNS will also ensure sharing the revised syllabus to the concerned students shortly.

Warm Regards,

Dibha Samal
Principal
